A great classic when in the mood for a relaxing game.. Too complicated. -1.. Meh, less than average tower defense game. Not much fun in it. I like more of a Kingdom Rush style game.. One of the worst tower defense games I've played. Fun, affordable Tower Defense - hopefully they will port the sequel to Steam also.. It's been out a couple of months now and the mouse lag still hasn't been fixed making this game impossible to play.

[Rating: 62/100]. Great game for a great price. It's a classic Tower Defense game. You have a field crossed by minions and must kill them all before they reach the other side of the map. You have different kind of towers (slow, rockets, laser, etc) and can block them so they have to go through the path you make.

A really simple to learn game and quite fun if you like this kind of game. Worth the money.

good game. well organized and balanced. It's a classic Tower Defense game. You have a field crossed by minions and must kill them all before they reach the other side of the map. You have diferent kind of towers (slow, rockets, laser, etc) and can block them so they have to go through the path you make.

A really simple to learn game and quite fun if you like this kind of game. Worth the money.. A simple at glance but surprisingly deep Tower Defense game. Very easy to get into and start testing your prowess. I'd easily recommend it to anybody looking for a TD game for cheap. Bought this game, realized Iu2019m terrible at this kind of game.. maybe yeahh. not a good game, grow up
